STENCILS

Stencils provide strong, clean lines and creative shapes helping to guide placement and ensure symmetry.

SHIMMER

Add intensity and bring underlying colors to new heights by applying shimmer on top of colored eyeshadows.

ADORNMENT

Add a special touch by applying crystals and glitter to the look.

- Lay the stencil and outline the shape prior to filling in color. When using all light colors, outline using a concealer pencil
- Apply complexion last to maintain the integrity of the stencil shape and allow for any corrections. Layer complexion products to build dimension. For example, creams over liquids and shimmer over liquid Illuminators
- As a final touch, finish edges with black cream or liquid liner to create sharp, precise lines
